I had been "pretty" primal for several years, had dropped 50 pounds or so and was in the best shape of my life when my body betrayed me... and saved me. There's gotta be a better way to say this, a way that doesn't make it seem like everyone here is stupid.

Cycle 6'7'-dihydroxybegamottin with dianabol dianabol stabozolol dianabol sustanon nolbadex diababol.

You never know when the day might come that you'll need blood.
