the worst traffic in the nation, and where the commuter trains are used for more than 400,000 rides each
the survey also reports that nearly three-quarters of shoppers reported reading food labels
when a medicine containing a new drug molecule first becomes available, the pharmaceutical company
usually sells it under a brand name
most insurances will not pay it..
they are accorded much more respect
bad food is bad medicine and will make us sick
detto che l'amministrazione della giustizia non procede no con quella speditezza, no con quella efficacia
